25X1A9a **MEMORANDUM FOR:** [REDACTED]

25X1A6a **SUBJECT** : Report of Your Trip to [REDACTED] (SAPC-9278)

I read the referenced report with interest and was very pleased with its generally favorable tone. With respect to the one problem you raised, the occasional use of potentially toxic substances, I would think it appropriate that either an instruction or at least a suggestion go forward to the Base Commander from this Headquarters. I would favor an informal suggestion that the Base Commander on his own authority publish an appropriate regulation. I would appreciate it if you would draft a note to this effect for my signature or, alternatively, would you communicate with the Base Commander in your own name.
